N Bolst-R™ (Nitrogen Fixer in the Planter Box)

N Bolst-R™ (Season-long N-Fixer/P&K Solubilizer)

Bolst-R is an exciting new entry to our dry, planter-box lineup of exceptional products for your farm. **N Bolst-R** is a blend of 4 forms of N-fixing *Bacillus*, 1 form of a Potassium solubilizing *Bacillus*, and 1 form of a Phosphorus solubilizing bacteria.

- **Increased Nitrogen Availability** – feeds your crop season-long by converting soil microbes into nitrogen
- **Improved Root Structure** – Field studies show bigger root surface area, root diameter, number of root tips/volume, and total root length.
- **Improved Soil Fertility** – Offers N and P levels higher than traditional cow dung manure as a soil amendment directly on the soil.
- **Improved Phosphorus and Potassium Efficiency** – Promotes the availability of P and K in the soil helping to improve crop performance and yield.
- **Higher Return on Your Investment** – The low use rate and lower per acre investment with the many agronomic benefits can put more money in your pocket.
- **Convenient and Easy Application** – Apply over the seed in the planter-box or through the pro-box. It will adhere to the seed and be ready to work as soon as it gets in-furrow.!
- **Clean and Safe for You** – allows you to handle and breathe-in with your safety and health in mind. Just add it to water or your current foliar mix.

Available as a Planter-Box (PB) or ProBox application at ½ oz. per of unit seed.

Yield Per Acre

Means followed by the same letter are not different, LSD, p= .10
