

DRI★FECTA

Dry Seed Finisher

NET CONTENTS – Pounds (US)

BOX 25

Product Code:

Batch #:

INGREDIENTS

NewFields Ag Dri-Fecta

High performance seed coating as a dry blend of inerts suitable for food use pesticide formulations; for enhancing seed.

Note: Product is sold by weight and not volume. Settling may occur.

DANGER

May form combustible dust concentrations in air. Suspected of causing cancer.

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

PERSONAL PROTECTION EQUIPMENT (PPE):

Wear protective gloves, protective clothing, eye protection and face protection. In case of inadequate ventilation wear respiratory protection.

If exposed or concerned: Get medical advice/ attention. Store locked up. Dispose of contents/ container in accordance with local/ regional/ national/ international regulations.

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE - LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

DIRECTIONS FOR USE

Dri-Fecta is a dry bulk formulation. Application should be on seed with the aid of commercial seed applicator designed for accurate application of dry bulk simultaneous with liquid seed applied technologies. Not for use in liquid slurries.

May be used with seed coat polymers to promote adherence on seed, flowability of treated seed, and to minimize dust-off.

Do not use treated seed for food, feed or oil purposes.

The final Dri-Fecta rate selected should be based upon preference for seed appearance and finished seed flow characteristics.

Always follow the manufacturer's labels for any additional material mixed with this product.

This product should be applied to seed while still tacky from liquid seed applied technologies. Applying product to dry seed may result in more dustiness, while applying too early (when seed is still too wet) will result in less optimal appearance and slip of the treated seed.

RECOMMENDED RATE

All seed types: **Apply at 1 to 3 Dry Oz. / CWT**
Smaller seeds may need a higher end rate applied. Various factors will influence your application rate decision. The rate selected may be based on user preference for seed flow and appearance. Other seed coating polymers may be used in conjunction with this product to promote adherence on seed, seed flow, and reduction of dust-off.

CONDITIONS OF SALE/LIMITATION OF LIABILITY

NEWFIELDS AG MAKES NO WARRANTIES REGARDING THIS PRODUCT, EXPRESSLY DISCLAIMING ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. NEWFIELDS AG'S LIABILITY FOR ANY CLAIM SHALL NOT EXCEED THE PRODUCT PURCHASE PRICE.

This product is protected by U.S. Patent No. 10,426,077 and is under license to NewFields Ag.
