

FORTI-5

3-0-0

Directions For Use:

Forti-5 is a uniquely designed proprietary amino acid chelate (paac) nutrient intended for agricultural use for plant nutrition.

General application rate recommendations:

16 fl.oz./acre diluted with a minimum 20 parts water
OR

16 fl.oz./acre in the tank mix

Scan for more information.

For the agronomic application rates suitable for your geographical area or the maximum allowable application rates per acre, consult a trained NewFields Ag representative or contact info@newfieldsag.com.

Used to mitigate environmental stressors or to support substantial growth periods

Protect from freezing. Do not use undiluted.
Always do a jar test for compatibility.
Shake well before use.
