

Vict-RTM PM POWERED by

FOR SOYBEANS: Innovation in the Planter Box

Vict-R PM is a bacterial inoculant for use in agriculture for soybeans and sunflowers during critical stages of growth.

WHEN APPLIED, Vict-R PM:

- Allows plants to more effectively utilize nutrients
- Provides seed lubricant and seed flow aid during planting or seeding

PLANTER BOX/HOPPER BOX APPLICATION

The recommended application rate is 0.5 oz. (14 g) per 140,000 seeds per unit). The recommended application rate is 0.5 oz. (14 g) per 140,000 seeds (sunflower seed size 2, 3, 4, or confection). Apply by dispersing the powder evenly onto seeds using appropriate equipment.

Vict-R PM can be applied in all planter types.

This product may settle in the package during shipment. Gently agitate the package prior to use by turning this container end over end a few times with the seal closed securely to loosen material if settling has occurred.

Product for limited use only as labeled for on-seed lubricant.
